PROFESSIONAL EXPERIENCE

Application Engineer

Dec 2021 - Present

Insightmobi Solutions Pvt Ltd

Bengaluru - Karnataka, India

Roles & Responsibilities

- **Design and Development:** Designed and developed web applications using ReactJs. Implemented RESTful APIs and seamlessly integrated them with front-end components to ensure smooth data flow.
- **UI Development:** Designed and built responsive UI to enhance user experience. Effectively implemented software changes and alterations according to design specifications.
- **Module Implementation:** Implemented and updated application modules to enhance overall functionality. Conducted thorough testing of web applications to ensure optimal performance.
- **Version Control:** Utilized Git for version control, ensuring a systematic approach to tracking changes. Collaborated with team members using collaborative workflows for efficient project management.

Quality Control

Dec 2015 - Feb 2018

Vishnu Chemicals

Hyderabad, Telangana

Responsibilities and Achievements:

In my role at **Vishnu Chemicals**, I played a crucial part in ensuring the quality and satisfaction of our products through meticulous inspection and evaluation of finished samples.

PROJECTS

NextGen Campaign

Oct 2022 - Nov 2023

Insightmobi Solutions Pvt Ltd

Bengaluru - Karnataka, India

Project: NextGen Campaign

Overview: NextGen Campaign is an innovative project strategically designed to revolutionize product campaigns. By intricately weaving together product selection and nearby store recommendations, users can seamlessly receive personalized suggestions for optimal purchasing experiences. Moreover, users gain access to exclusive coupon codes, ensuring an enhanced and cost-effective shopping journey.

Key Features:

- **Intelligent Integration:** Seamlessly integrates product selection with nearby store suggestions for an optimized shopping experience.
- **Personalized Recommendations:** Offers users personalized recommendations for the nearest stores based on their preferences.
- **Exclusive Discounts:** Access to exclusive coupon codes empowers users to enjoy attractive discounts on their purchases.
- **Automatic Payouts:** Ensures efficient and accurate crediting of payouts to retailers at the end of each business day.

Technologies Utilized: HTML, CSS, Tailwindcss, JavaScript, Reactjs

NextGen Campaign goes beyond conventional product campaigns, offering a seamless blend of technology and convenience. **Objective:** Developed for the Banking/Finance sector, the Product Catalog is a personalized user recommendation system based on transaction histories.

Product Catalog

Dec 2021 - Oct 2022

Insightmobi Solutions Pvt Ltd

Bengaluru - Karnataka, India

Project: Product Catalog

Overview: Product Catalog stands as a transformative project within the Banking/Finance domain. It specializes in delivering personalized recommendations to users, leveraging their transaction histories. This encompasses tailored insights into available loans, credit card offers, limits, and

potential tax reductions. Crafted with precision, the project introduces distinct modules to address specific requirements, ensuring users interact only with functionalities pertinent to their roles. This not only fortifies security measures but also elevates the overall user experience.

Key Features:

- **Personalized Recommendations:** Utilizes transaction histories to provide personalized suggestions on loans, credit cards, limits, and tax reductions.
- **Modular Design:** Incorporates different modules catering to specific requirements within the banking and finance realm.
- **Role-Based Access:** Ensures that users access only functionalities and data relevant to their roles, fostering enhanced security measures.

Technologies Utilized: HTML, CSS, Tailwindcss, JavaScript, Reactjs
